In other news...

Photo Workshops!

Bill Dusterwald is teaching a multiple-session class on lighting and portraiture.

- Jan 20, B28/S216, noon: Window lighting and bounce flash
- Jan 29, B28/N175, noon: Video studio-variable & multiple lighting
- Optional workshop in Bert's photo studio (Savage Mill; evening; TBD)
- Feb 8, B28/S121, noon: Tips and mechanics (e.g., equipment, camera settings, etc.)

We're trying a new way of displaying the pictures Bill takes at the demos. He has an Eye-fi card in his camera. Attendees should download the Eye-fi Mobi app on their phones. They should enter the id number 8RU277AHJB. As Bill takes a picture it should be automatically downloaded into their phones for viewing and then they can be sent normally to their computers for further manipulation.

Upcoming Photo Opportunities (Ops)

- More to be posted in February Newsletter, please submit your ideas to [Dave Schaible](#)
